NUMBER 46

AT REST.

Last Friday Afternoon Mrs. Hattie Bryant, Wife of Mr. Walker Bryant, Passed the Divide.

SICK FOR MORE THAN TWO YEARS.

After an illness of more than two years, Hattie, the beloved wife of Mr. Walker Bryant, on last Friday afternoon peacefully crossed over the dark river of Death.

The deceased was thirty-one years old, and had been a consistent member of the Baptist church since early girlhood.

She became a resident of Columbia ten or twelve years ago, and from the beginning her gentle, womanly character surrounded her with many warm, true friends. While her death was not unexpected, it brought sorrow to many who loved her association, and who deeply feel for the husband and the five children, four daughters and one son.

Last year her husband conceived the idea that the mountains of Tennessee would prove beneficial to her wasting constitution, and he carried her to Cumberland county, Tenn., placed her in charge of a physician and nurse. She remained several months, manifestly without improving, and she was returned home and soon thereafter took her bed. During her long illness she received the closest attention night and day. She was a victim of pulmonary trouble, an incurable malady; and as she was ready to meet her Savior, it should be a comfort to the loved ones she left, to know that she is beyond the reach of bodily affliction—in the celestial home beyond the skies.

May the Giver of all that is good comfort the remaining members of the family in this the greatest of all sorrows—the loss of a devoted wife and dear mother.

The funeral services were conducted at the residence Saturday morning at 9 o'clock by her pastor, D. H. Howerton, many friends being present.

The interment was in the city cemetery.

There were many floral offerings.

Sudden Death.

Last Sunday afternoon Ray Hadley, a boy about nineteen years old, died suddenly near his home, McGaha, this county. The deceased and four other boys had gone to Sulphur Creek and were in swimming. Ray was seen by his companions to raise up in the stream and with his hands wipe the water from his face.

Immediately after drying his face he fell backward, and when his companions reached him he was dead. He was a son of John Hadley, and his demise makes three sudden deaths in the family of his parents in the last thirteen months.

Judge J. C. Carter arrived from Tompkinsville in due time, and about 10 o'clock Monday morning he convened court, perfecting an organization by the noon hour. He gave the grand jury the usual instructions, and it is now at work. Mr. Huddleston, the Commonwealth's Attorney, and Mr. Gordon Montgomery, County Attorney, are looking after the State's interest.

A strange disease has struck cattle in some portions of Adair county, their tongues becoming sore and they refuse to eat. A. D. Todd, who lives near town, has a number that are afflicted, and we also understand that the disease is in the Bliss neighborhood. The malady is also raging in a number of other counties in the State.

A large crowd attended the opening of circuit court Monday, and all classes of business fairly good during the day. There were quite a number of sales on the market, some changing hands, prices ruling high.

Mrs. C. M. Russell, who underwent a slight operation in St. Anthony Hospital last week, will be able to return home in a few days.

Sudden Death at Glenville.

The residents of Glenville were greatly shocked last Saturday morning when the intelligence spread over the community that Mrs. John A. Chapman, who retired in good health the evening before, had suddenly died. She awoke about six o'clock, complaining of her stomach, dying before a doctor could reach her. Mrs. Chapman was a Miss Helm, and was a lady highly respected in the community where she lived and died. She was about fifty years old and will be greatly missed. Every body is in sympathy with the husband and the other surviving members of the family.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller." For sale by Paul Drug Co.

New Livery and Feed Stable.

W. H. Goff has withdrawn from the firm, Goff Bros., and has opened a first-class livery and feed stable in the barn known as the Coffey Bros., barn. He has all kinds of vehicles, fresh going horses and safe drivers. Feed in abundance. When in Columbia, ask for his stable.

Mr. X. W. Scott, of Ruby, this county, who lost his dwelling by fire in the month of July, was here last Thursday to meet an insurance adjuster. His property was insured for \$1,100, but the house was not quite finished. After going over the matter Mr. Scott agreed to knock off forty dollars, and the adjuster paid \$1,060. Judge W. Jones represented the claimant and Mr. G. P. Smythe is the local agent for the company.

Hunters are well aware of the new law requiring them to have license, but few remember the clause requiring that this document must be kept in the pocket while hunting. This seems a little unreasonable, but the framers of the law desired to get the best results and inserted this provision.

Having purchased the interest of Preston Miller, I am now in business for myself. I will keep a full line of fresh groceries and invite my friends to drop in or call my phone No., 166. Prompt delivery.

Parcel Post Summary.

A Delightful Occasion.

In response to many inquiries for information, Senator Jonathan Bourne, Jr., chairman of the Senate Committee on Post-offices and Post Roads, has prepared the following summary of the provisions of the new parcel post law which will become effective January 1, 1913:

Any article is mailable if not over 12 pounds in weight nor more than 72 inches in length and girth combined, nor likely to injure the mails or postal equipment or employees.

Flat rate of 1 cent per ounce up to four ounces, regardless of distance.

Above four ounces, rates are by the pound or fraction thereof, and varying with distance as follows:

	Each	First lb.	additional lb.	lbs.
Rural route and city delivery	.05	.01	.15	
50-mile zone	.05	.03	.35	
150-mile zone	.06	.04	.46	
300-mile zone	.07	.05	.57	
600-mile zone	.08	.06	.68	
1,000-mile zone	.09	.07	.79	
1,400-mile zone	.10	.09	1.00	
1,800-mile zone	.11	.10	1.11	
Over 1,800 miles	.12	.12	1.32	

The Postmaster General may make provision for indemnity, insurance and collection on delivery, with additional charges for service, and may, with the consent of the Interstate Commerce Commission after investigation, modify rates, weights and zone distances, when experience has demonstrated the need therefor.

More Automobiles

Mr. J. B. Barbee, the proprietor of the Columbia and Campbellsville Stage Line, has arranged for a quicker way of transporting passengers to and from Columbia. He visited an automobile factory at Marion, Ind., last week and contracted for two large cars, each having a seating capacity of eighteen, baggage included.

Mr. Jo Hurt, who has been connected with this factory for several years, was with Mr. Barbee when the machines were purchased. They will arrive here within thirty days from the time they were bought and will be placed on the pike. This is an extra good car, guaranteed to give entire satisfaction. The two cars cost \$4,600.

Strayed.

A black sow and two shoats. The sow will weigh about 100 pounds, the shoats 50 pounds each. Another black sow with 5 shoats. This last sow will weigh 125 pounds and the shoats about 40 pounds each. All the above stock is marked. The owner can have same by paying for the keeping, and for this notice.

Burton Yates.

A Call from Winchester.

Rev. J. R. Crawford, pastor of the Presbyterian church, here, has received a call from the Washington Street Presbyterian Church, Winchester, Ky. Rev. Crawford has reached no decision, and it is hoped that he will remain the pastor of the Columbia Church. He is, however, in correspondence with the church at Winchester, and should he decide to leave his charge here, due notice will be given the congregation.

The Adair County Co-operation Meeting of the Christian Church will convene with the church at Cane Valley, beginning on Friday evening before the first Sunday in October, 1912. The program will appear in the News next week. A special request is made that all the churches in the county send delegates and reports. One of our State workers will be there and W. J. Los of Lebanon, will be with us.

We learn from the Glasgow Republican that Mr. E. T. Willis, a former citizen of Columbia, has just returned from Macon, Ga., where he took a special course in the drug business, and is now a full fledged pharmacist. Mr. Willis has been conducting a drug-store at Glasgow for several years.

Improvements on the interior of the Presbyterian church will commence next week. It will probably require ten or twelve days to do the work. While the work is in progress there will be no services at the church.

There were five additions to the Methodist Church during the meeting. In many ways the meeting was a success.

A few nights ago a small store house on the Burkesville road, the store being conducted by Judge Lynch, was broken into and between twenty-five and thirty dollars in cash stolen.

Leaves Columbia.

Rev. D. H. Howerton, who has been the pastor of the Baptist church, this place, and Zion church for the past two years, delivered his farewell sermon to his congregation in Columbia last Sunday, and in a few days will leave to fill another engagement. Rev. Howerton is a minister, intellectually speaking far above the average, and his place will not be easily filled. He is an independent thinker, and has no hesitancy in denouncing the acts of the lawless from the pulpit. Wherever he locates he and his interesting little family will have the best wishes of his many Columbia friends.

Since writing the above we learn that Rev. Howerton will go to Louisville from here and will do work in the Baptist Seminary during the winter and will continue to preach for two churches in Taylor county.

Gen. Garnett Has Hobby.

James Garnett, Attorney General of Kentucky, came down from Frankfort to Louisville last night to attend the State Fair. He is accompanied by Mrs. Garnett. Judge Garnett says that the reports from Adair, his home county, and those surrounding, get better all the time and the Democratic presidential ticket is sure to profit by the trend. Judge Garnett is now much interested in two hobbies, good roads and the commission form of government for the various counties. He says the State is ripe for both and the people are taking a deep interest in these propositions.—Louisville Times.

Happily Entertained.

The following young ladies were entertained Tuesday by Mrs. B. E. Rowe at her beautiful country home, in honor of Mrs. P. A. Strange and Miss Ruth Hensley, of Jacksboro, Texas. Mesdames Chas. Barnett, Leo Baldauf, Eros Barger, Rob. Reed, Bruce Montgomery, P. A. Strange, Josephine Rowe, Misses Jenny McFarland, Alice Walker, Madge Rosenfield, Lucile Shannon, Ruth Hensley, Nann Allen, Katie Murrell were present.

A most bountiful dinner was served and a delightful day spent.

There are but few persons in Adair county who are more comfortably situated than Mr. and Mrs. M. L. Mitchell, who live in the suburbs of Columbia. Last Sunday, in company with Mr. Geo. Nell, a News man visited their cozy home and was shown over the premises by Mr. Mitchell. He has a splendid orchard, a fine strawberry bed, an abundance of vegetables, and fruits of every variety. This year he grew some very fine pears, but not as many as usual. Mrs. Mitchell has plenty of chickens, and one of the finest cows in the county. Mr. Mitchell takes great pride in his hogs, the finest of breed. The dwelling is very elegantly furnished. In fact it is just the home to make life worth living.

Mr. John McFarland, of Rowena, returned from the State Fair with his mind made up to buy an automobile. He informed The News that his wife and daughter, who accompanied him, were prejudiced against the machine until they made the trip to and from Campbellsville to this place. They are now perfectly delighted, and he says he will sure purchase one, and that at an early day.

Respt.

M. R. Powell.

The meeting at the Methodist church closed last Sunday night. The pastor, Rev. J. W. Weldon, reports that the church has been greatly benefitted, and that he has accomplished what he expected at the beginning. There were several professions, and a general good feeling pervades the entire membership. Love one another is a Bible injunction, and such a feeling must reign if a church succeeds.

All the ministers of the Louisville Conference will leave Adair county the last of the week for Morganfield, where the annual conference will convene next week.

R

The Farmers and the Tariff.

Governor Wilson has indicated in the speeches he has made thus far in the campaign that he attaches a good deal of importance to the question of the tariff as it affects farmers. The Democratic candidate put this whole question into a nut shell when he said:

"That farmer does not derive any benefits from the tariff when he goes to market to sell his products, but on everything the farmer buys there is an artificial high price, due to the tariff tax."

High protectionists in Congress have for many years deceived the farmers into believing that because the tariff is kept on wheat and corn the corn is necessarily benefitted thereby. That this is false logic is apparent to any student of American import and export statistics. This country produces more wheat and corn than the American people consume, which obviously makes it impossible for any foreign country to sell wheat or corn here. Europe, which is the great market for surplus American grain, uses all the grain produced there for home consumption, and in addition, the European countries have to send over here for more. If there were no tariff at all on grain, therefore, the American farmer would not be menaced by the possibility of foreign competition, for the reason that foreigners have no grain to sell.

But the situation is vastly different with the farmer when he comes to buy the tools, machinery, clothing, and other necessities of life. He finds every article that he uses in producing his crops taxed higher and higher, until, as Governor Wilson says, "it is getting to be next to impossible for the American farmer to make a legitimate profit."

The farmers' implements, their smaller tool, wagons, household articles, lumber, and harvesting machines have steadily risen in price.

That this rise has been due to artificial causes is proven by the fact that the identical articles used by the American farmer are sold abroad for from 25 to 40 per cent less. B. D. Townsend, in his report to President Roosevelt on the Harvester Trust, and that the same harvesting machines that were made by the trust in Chicago, and sold to the American farmer for \$125, and sold in Russia for \$80 and \$90. Nothing but the tariff enables the trust to thus rob the American farmer, because, if it were not for the tariff, the danger of competition from Canada would force the American trust to sell its machines for one price to all.

Governor Wilson has shown a deep grasp of the tariff question as it affects the farmer, and it is certain that before the campaign is much older he will have some illuminating things to say to the farmer on this vital subject.

The Word From Vermont.

The election in Vermont last week portends a sweeping Democratic victory in November. The returns point so certainly to that result that "he who runs may read." The Democratic gain in the State was twenty seven per cent. This gain in the most conservative and rock rib-

bed Republican State in the Union, if equalled elsewhere in November would put twenty States which went Republican four years ago, in the Democratic column.

In round numbers the total vote in Vermont is 60,000. Four years ago 45,000 of these were cast for the Republican ticket and 15,000 for the Democratic ticket. The Republicans polled three votes to every one vote cast for the Democrats. This year with the Republican and Progressive tickets in the field it was reasonable to suppose that the Progressive party would draw some from the Democrats, but such was not the case. In the election last Tuesday the Democrats polled one vote for their candidate for Governor for every two votes cast for the two other candidates for Governor combined.

The total vote of 60,000 was divided in this way; 25,000 for the Republican ticket 20,000 for the Democratic ticket and 15,000 for the Progressive ticket. The Roosevelt party drew its entire 15,000 from the Republican party and the Democrats drew 5,000 from the Republican party.

To put it another way the Progressive party drew exclusively from the Republican party dividing that vote in such a way that if followed out in the other States the electoral vote of every one of them will be cast for Wilson, as no other State besides Vermont has three Republican votes to one Democratic vote. The other significant thing in the election is that the Democrats increased their vote 27 per cent over the combined Taft and Roosevelt. Four years ago the Republican plurality was 30,000 in Vermont. This year it is only 5,000.—Elizabethtown News.

An Applied Definition.

E. Trowbridge Dana, grandson of the poet Longfellow, who was recently married in Cambridge with a beautiful ritual of his own composition, said the other day to a reporter:

"If all couples gave to marriage the profound thought and reverence that my wife and I give to it there would be fewer mismatings.

"The average married pair, it sometimes seems to me, are like the Blinks.

"Pa," said little Tommy Blings one day, "what's a weapon?"

"A weapon my son," Blinks answered, "is something to fight with."

"Then, pa," said little Tommy, "is ma your weapon?"

The man who is willing to continue to wade mud to his knees or scale along fences or trespass on the enclosed premises of others to get from one place to another, in order to keep from having a good road for some fellow to travel that he is prejudiced against, is a splendid sample of the man who is willing to cut off his nose to spite his face.

What We Never Forget

according to science, are the things associated with our early home life such as Bucklen's Arnica Salve, that mother or grandmother used to cure our burns, boils, scalds, sores, skin eruptions, cuts, sprains or bruises. Forty years of cures prove its merit. Unrivaled for piles, corns or cold sores. Only 25 cents at Paul's Drug Co.

Doings in Congress.

In session 270 days, the last Congress has cost a lot of money in salaries, payrolls of employees and in other ways necessarily incident to the session of the house and senate. To figure out the cost in dollars and cents for salaries of members add employees, together with the expense of the Stephenson and Lorimer cases, would take too much time. Put it down at a big amount and let it go at that! Admit that the 270 days were expensive, and let the brethren of the wide split enemy hug to their troubled souls all the consolation they can get out of the fact. Look at the results!

The Democratic house, true to its pledges, revises the Payne tax downward. The Democratic minority in the senate forced the downward revision through that branch of the congress—woolen bills, cotton bills and other bills which would have added weight to the pocket of the consumer—and taken some of the weight from the pockets of the Payne tax trusts. And the bills were sent to the president, who, not regarding his pledges, very promptly vetoed them, saying

that he would have vetoed them even if he had died for it—when there wasn't anyone in the land thinking of laying hands on his amiable and scientific-tariff-revision corporosity.

It costs money to run a congress 270 days—but a Democratic house and a stubborn and aggressive minority in the senate have immeasurably more than paid the total cost! Hats off to the Democratic house, the senate minority and the Stanley committ!

Three of Duvall Grant's and two of Dr. Sam Taylor's children have diphtheria. Owing to the frightful attack of this disease on the children in this neighborhood three years ago much uneasiness is being felt.

Feeding Experiments With Cows.

Another report recently received by the Department of Agriculture is that of extensive experiments conducted under the direction of the Copenhagen (Denmark) Experiment Station for the purpose of determining the feeding value of wet brewer's grains and of soy-bean cakes for milch cows.

On replacing oil cakes by wet grains, the basal ration consisting of hay, straw, ruta bagas, cotton seed meal, peanut cakes, or soy-bean cakes, it was found that ten pounds of wet grains was equivalent to 2 pounds of the high protein cakes.

Neither the milk production, the chemical composition of the milk, nor the condition of the cows was affected by the introduction of the wet grains into the feed ration in this proportion. When good, fresh, soy-bean cakes were fed, no deleterious influence of feeding them was traceable in the flavor or taste of the butter, even when these were fed excessively. In the latter case they produced butter of a hard consistency, so that the winter grain feed of the cows should not, therefore, be made up too heavily of soy-bean cakes.

Our Bumper Crops.

Record-breaking crops are reported by the Department of Agriculture in the September report. Corn may reach 2,995,000,000 bushels, exceeding the record crop of 1906 by 68,000,000 bushels. The spring wheat crop, it is estimated, will go 8,000,000 over the record crop of 1908; potatoes; 9,000,000 bushels over the high yield of 1909; oats 104,000,000 bushels over the record crop of 1910. The tobacco yield is estimated at 71,000,000 pounds in excess of last year's crop.

A Mix Up of Items.

A paper in Nashville, Tenn., contained the following item which got mixed up with a stock sale:

"William Smith, the only son of Mr. and Mrs. Josiah Smith, and Mrs. Lucy Anderson were disposed of at public auction, one mile east in the presence of seventy-five guests, including two mules and twelve head of cattle. Rev. Jackson tied the nuptial knot for the parties, averages 1,250 pounds on hoof. The beautiful home of the bride was decorated with one sulky rake, one feed grinder and two sets of work harness, nearly new, and just before the wedding ceremony was pronounced, Mendel & Son's wedding march was rendered by one milch cow five years old, one Jersey cow and one sheep, who carried a bunch of bride's roses in her hand, was very beautiful. She wore one light wagon, two crates of apples, three racks of hay, one grindstone of moisiline desole and trimmed with 100 bushels of oats. The bridal couple left yesterday on an extended trip.

Who wants to Try it.

A leech kept in a glass jar of water is an excellent weather prophet. The jar should contain about three gills of water, which should be changed once a week in summer, every ten days in winter. When the leech lies at the bottom of the jar and curled up in spiral form, you may reasonably rely on fine weather. If, however, it creeps up to the top of the jar and remains there, rain is coming. When the leech darts about its lodging with great swiftness, it is not suffering from pain, but is telling you to look out for the wind. If a hurricane is on its way the leech will be more out of the water than in, and will have convulsive movements. The jar, by the way, should be only partly filled with water, while the top should be covered with muslin. When Jack Frost is going to pay us a visit the leech behaves as when foretelling fine weather—i.e. he lies at the bottom of the jar, but when snow is coming he climbs right to the mouth of the jar and sticks there.

Appeals Strongly to Every Legitimate Business Interest.

John W. Kern, Senator From Indiana.—"Governor Wilson's speech of acceptance is a masterpiece, setting forth with great clearness his conception of the work to be accomplished by the Democratic party under his leadership. It is in complete harmony with the progressive sentiment of the country, but also appeals strongly to every legitimate business interest."

Will Take High Rank.

Champ Clark, Speaker of the House of Representatives.—"Considered from a literary standpoint, Governor Wilson's speech of acceptance will take high rank in the political output of the year. It will make pleasant reading and therefore will prove a fetching campaign document. He discusses the issues of the day philosophically, clearly and forcibly. Its courteous tone will allay opposition and win him friends. It is an admirable pronouncement."

Battle Hymn of Democracy.

Senator Gore of Oklahoma.—"The closing sentence of his speech will become the battle hymn of Democracy in the pending campaign: 'I thank God and take courage.' It is at once a paean of praise and is a summons of patriotic duty."

Discreet, Able, Safe and Sane.

John E. Lamb, ex-Representative From Indiana.—"Speech is discreet, able, safe and sane. Governor Wilson believes in the efficacy of the scalpel rather than the big stick. His dissection of trust and tariff evils is unique and convincing. His suggestions of reform in methods of government and reduction of tariff schedules will meet with approval of legitimate business and the laboring masses as well."

Points the Way For Justice.

Hoke Smith, Senator From Georgia.—"I am delighted with Governor Wilson's speech of acceptance. It is a superb statement of the present purpose of the Democracy and points the way for justice to all through real progress by law under the constitution. With his election assured, it should give confidence to honest business and new courage to those who need a square deal."

Lays His Soul Bare.

John F. Fitzgerald, Mayor of Boston.—"Governor Wilson's acceptance is characteristic of the man. He lays his soul bare to the people and asks them to join with him, irrespective of party, in righting present wrongs without undue clamor or injury to legitimate interests. He lays emphasis on constructive thinking, and I believe this epitomizes one of the nation's greatest needs at the present time. It will be President Wilson overwhelming in November."

Progressive, but Not Wild.

Thomas Mott Osborne, Auburn, N. Y.—"Governor Wilson's speech fits the occasion and the man—progressive, but not wild; sane, strong and unmistakably Democratic. It makes an inspiring opening of the campaign, indicating clearly and nobly the spirit in which the leaders of our regenerated Democratic party must govern; not one of mere 'partisan make believe,' but of honesty and justice toward all men."

Prophetic of Success.

Governor William H. Mann of Virginia.—"I think it was an admirable speech. It was wise, forcible, comprehensive, prophetic not only of Democratic success, but of Democratic supremacy for years to come."

Rings True in Every Sentence.

Governor Frederick W. Plaisted of Maine.—"It is a splendid presentation of the issues for the American people. It rings true in every sentence and in every word. It represents the spirit of the Democracy of today. It is the address of a statesman."

An Admirable Presentation.

Governor Eugene Fess, Massachusetts.—"It was an admirable presentation."

Straight to the Heart.

New York World.—"Woodrow Wilson's speech of acceptance is the ablest, clearest, sanest statement of high public purpose this country has known in a generation. Without passion, without invective, without abuse, without partisan bitterness, without denunciation, without egotism, without demagogic, he has driven straight to the heart of the supreme issue of American institutions—the partnership between government and privilege."

LABOR AND THE RULE OF RIGHT.

The working people of America—if they must be distinguished from the minority that constitutes the rest of it—are, of course, the backbone of the nation. No law that safeguards their life, that improves the physical and moral conditions under which they live, that makes their hours of labor rational and tolerable, that gives them freedom to act in their own interest and that protects them where they cannot protect themselves can properly be regarded as class legislation or as anything but as a measure taken in the interest of the whole people, whose partnership in right action we are trying to establish and make real and practical. It is in this spirit that we shall act if we are genuine spokesmen of the whole country.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

of the real issues upon which the campaign will be fought this fall. I think that it is bound to strengthen Governor Wilson among the thinking people of the country."

Will Ring Through the Country.

Governor George W. Donaghay, Arkansas.—"It was a great speech. It will ring through the country. It is just what he should have said. The people have never felt more confident of success since the first nomination of Grover Cleveland."

Iowa For Wilson.

Judge Martin J. Wade, Iowa.—"For the first time since the state was admitted to the Union Iowa will this year give its electoral vote to the Democratic nominee for president."

Jeffersonian to the Core.

John A. Dix, Governor of New York.—"Governor Wilson's speech of acceptance is marked with broad vision and clear thought, expressed in language every American can understand. As a business man and manufacturer, I am especially pleased with his positive and statesmanlike position on the paramount issue of tariff reform and his demand for an immediate downward revision. In sincerity, precise statement and comprehensive grasp of great principles and their application of the fundamental needs of the country the speech is Jeffersonian to the core. It contains no appeal to passion and excites no prejudice. Governor Wilson has presented to his party and to the nation clear conception of the truth that the real struggle in the pending campaign is between the concentrated powers of privilege and the aspiration of the American people to realize in their government and their economic industrial and social relations the full measures of the principles of freedom, justice and progress, upon which the republic was founded. To all the issues and every national need Governor Wilson applies the 'rule of right and advantage.' The reforms he advocates are far-reaching, but they are necessary, sound and practical. The speech will awaken and stir the national conscience and lead to a triumph that will restore to the people the control of their government and inaugurate a new and happier epoch in the life and development of the republic."

Worthy Leader of Progressive Americans.

Louis D. Brandeis, Boston.—"Governor Wilson's speech of acceptance is the utterance of a twentieth century statesman. With keen perception he recognizes the evils from which the people are suffering and the dangers which threaten our welfare. With broad vision he points the way by which those evils may be removed and the dangers averted. He proves his understanding alike of business and of social needs and that he is a Democrat in fact as well as in name, and his courage is undoubted. Progressive Americans have in him a worthy leader."

Equable and Moderate.

New York Sun.—"Governor Wilson's speech of acceptance has good luck as well as merit. It comes just in time to confront sharply with the infamously badtempered rant of Th. Denius Asclepius Ferox. And, if with contempt of campus it may be said, though written by a college president very recently retired, it is in the English language, not anaemic and sedentary with suspicion of priggishness or domineering, though it has an air of certain academic distinction of its own. What will please everybody who has a living to make is Governor Wilson's equable and moderate tone. Governor Wilson is for repair, not for destruction."

Partnership of the People.

New York Times.—"It is applicable. The dominant thought, the very soul of his discourse, is the common interest of all the people, their partnership in our activities and our prosperity. The partnership idea comes from his mind not as a sublimated political theory, but as a practical, immediate remedy."

REVISE TARIFF UNHESITATINGLY DOWNWARD.

There should be an immediate revision of the tariff, and it should be downward, unhesitatingly and steadily downward.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

Woodrow Wilson, Scholar and Statesman, Democratic Candidate For President.

FARMERS SHOULD SUPPORT WILSON

Best Equipped Man For Presidency Since Lincoln.

SENATOR GARDNER'S VIEWS.

The Maine Statesman, Himself a Farmer, Declares That President Taft Would Continue to Tax Farmers of the United States and at the Same Time Compel Them to Compete With Canadian Farmers.

The reasons why those engaged in agricultural pursuits should support Governor Woodrow Wilson for president are strongly set forth by Senator Cladwin Gardner of Maine in an address to farmers.

Senator Gardner is a practical farmer, one who farms his own farm, and he is probably in closer touch and sympathy with country life and its environments than any other man in public life.

For twenty-five years Senator Gardner has been actively interested in the national grange, and for ten years he was the master of the state grange of Maine. A few years ago he came within a close margin of being elected governor of the Pine Tree State.

A little less than a year ago, when Senator Frye, who had represented Maine in the senate for thirty years, died, Governor Plaisted honored Mr. Gardner and recognized the agricultural interests of the country by appointing him to the United States senate, where he has made a most creditable record, devoting particular attention to the welfare of the great rural population of the country. He is now a candidate for re-election and will undoubtedly be successful.

In his address Senator Gardner says:

To the Farmers of the United States, Greeting: Being one of you and for the greater part of my life having been engaged in the practical everyday work of my own farm, I have, for twenty-five years past officially at work through boards of agriculture and the national and state granges, having served four years as second officer of the national grange and as master of the Maine state grange ten years, during which time the order in Maine added 35,545 members and attained a power and influence never had before. I feel I am in a position to speak from the standpoint of one who knows the farmer and his needs, and it is solely because of

THE PEOPLE AND THE CURRENCY.

In dealing with the complicated and difficult question of the reform of our banking and currency laws it is plain that we ought to consult very many persons besides the bankers, not because we distrust the bankers, but because they do not necessarily comprehend the business of the country, notwithstanding they are indispensable servants of it and may do a vast deal to make it hard or easy. No mere bankers' plan will meet the requirements, no matter how honestly conceived. It should be a merchants and farmers' plan as well, elastic in the hands of those who use it as an indispensable part of their daily business.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

this that I am prompted to address you.

For years farmers have justly complained of being required to pull at the short end of the yoke because of unfair and unjust discriminations in legislation and transportation, and at the present time the farmers are charged with being the cause of the high cost of living when as a matter of fact, taken collectively, the amount invested in their business, the hours devoted to hard labor and everything connected with the details of agricultural life—they are, as a whole, the poorest paid class of people in this country while relatively the most important.

During all recent years farmers have been told what a great blessing it has been to them through the so-called protective tariff, and yet to find a market for their principal crops they have had to compete in the markets of the world where the price is fixed. But suddenly it is discovered that the farmer is the sole cause for the high cost of living and that happens. The so-called 'tariff' which was to do for the interests of the farmers, submits a plan to open up to competition with the farmers of the United States the products of Canada while being careful to preserve the tariff or, more correctly speaking, the tax on all the farmer has to buy, which as clearly as anything can expose the hypocrisy and 'humbuggery' of the claim that the tariff is any benefit to agricultural as compared with manufactured products.

Now, the farmers of this country have an opportunity to benefit themselves that has never appeared within my recollection, as the Democratic party has been compelled by the force of public opinion to nominate a man who is the best equipped for high office of any that has been nominated or elected since Lincoln—a man that I speak of from a personal acquaintance with and a knowledge of his fitness; a man of great natural ability, splendidly educated, not theoretically, but practically; a keenness of intellect remarkable for its grasp of every condition with which he is confronted; an indomitable courage to confront, and, above all, a great, broad tendency with sympathy for all classes. He will make one of the most accessible

presidents ever in the White House and through whom none will be refused a hearing, however humble, nor fail to receive justice at his hands. He is truly a marvelous man and I wish every person in the United States could know him as I know him. And supplementing all these qualities is the addition that his home is one of perfect balance.

None can meet the splendid Mrs. Wilson and her three refined, cultured daughters with their perfect naturalness but must feel that the whole family of Woodrow Wilson was especially prepared to fill a great need in the present crisis in the history of our country, as were Washington, Jefferson, Jackson and Lincoln, and I would advise the farmers upon my reputation as a man if you want to protect your own interests and those of your families, if you want to render the greatest possible good to your country and future generations, if you want to contribute your part to the end that popular government under God shall not perish from the earth, then see that the Hon. Woodrow Wilson is elected president.

WHAT REPUBLICAN PROSPERITY IS.

What has the result been? Prosperity? Yes; if by prosperity you mean vast wealth, no matter how distributed or whether distributed at all or not; if you mean vast enterprises built up to be presently concentrated under the control of comparatively small bodies of men, who can determine almost at pleasure whether there shall be competition or not. The nation as a nation has grown immensely rich. She is justly proud of her industries and of the genius of her men and of the genius of her men of affairs. They can master anything they set their minds to, and we have been greatly stimulated under their leadership and command. Their laurels are many and very green. We must accord them the great honors that are their due, and we must preserve what they have built up for us. But what of the other side of the picture? It is not easy for us to live as it used to be. Our money will not buy as much. High wages, even when we can get them, yield us no great comfort. We used to be better off with less, because a dollar could buy so much more. The majority of us have been disturbed to find ourselves growing poorer, even though our earnings were slowly increasing.

Prices climb faster than we can push our earnings up.—From Woodrow Wilson's Speech Accepting the Democratic Nomination.

WILSON STANDS ON HIS RECORD

Josephus Daniels Invites Close Study of Writings.

SLANDER WON'T WIN NOW.

Chairman of Democratic Publicity Bureau Points Out Errors of Campaigns of Previous Years and Finds a Good Moral—Roosevelt Also Wrote Books and Made Bitter Attacks on Various Men and Classes.

New York.—Josephus Daniels, chairman of the publicity committee of the Democratic national committee, said today:

"Eight years ago during the presidential campaign of 1904 I came to New York, and, being a member of the Democratic national committee, I dropped in at the headquarters of the committee. I found the literary bureau of the committee very actively engaged in perusing the volumes of Theodore Roosevelt. When I saw on every desk 'The Winning of the West,' 'The Life of Thomas H. Benton' and a half dozen others of the works of the then Republican nominee for president I wondered whether or not I had got into the right place.

"I was immediately set aright, however, when I was informed that the literary young men were engaged in culling from those books some of the many denunciations and bitter criticisms and attacks made by Theodore Roosevelt upon public men and measures and his aspersions upon great representative bodies of our people, such as workingmen and farmers.

"I found them preparing to send forth broadcast all over the land such excerpts from the writing of Theodore Roosevelt:

"'Cowboys are much better fellows and pleasanter companions than small farmers or agricultural laborers, nor are the mechanics and workmen of a great city to be mentioned in the same breath.'

"'Mr. Bryan and his adherents have appealed to the basest set in the land—the farmers.'

"They (workingmen who object to government by injunction) are not in sympathy with men of good minds and sound civic morality.'

Hits Quakers Too.

"They said from what he said about the Quakers, that those who would not fight were traitors to their country.

"They said that when the farmers and workmen and the Quakers came to know what Theodore Roosevelt had written about them they would rise up with wrath and indignation and bury Theodore Roosevelt beneath an avalanche of votes. They said that Roosevelt would not answer that exposure of his views, and, of course, he never did. I agreed with them that it was the proper thing to do to herald these utterances through the country.

"As to whether or not that sort of campaigning had any effect the result of the campaign eight years ago speaks for itself.

"The Republican party is attempting to do today the same sort of thing that the Democrats tried in 1908. The Democrats out-Rodenberged Mr. Rodenberg. They were eight years ahead of him in this sort of thing. It didn't work with us then, and it will not work with them now.

Stands on His Record.

"The attempt to attack Governor Wilson because of certain statements which he made in writing history and in commenting upon events of history as they appeared to him as historian will fail signally. As one great metropolitan newspaper pointed out, Mr. Rodenberg and his kind are simply 'Blowing against the wind.' Governor Wilson is running for president on his record as a public man, and with that record the public is fairly well conversant, and it will continue to learn more as the campaign progresses.

"He is running for president on his record as governor of New Jersey—what he said and did in that capacity rather than what he wrote as a historian, chronicling events and commenting upon them as they appeared to an impartial observer whose duty it is to write of things as they are rather than as they should be or as he would have them.

"Our Republican brethren are entitled to all the thunder they can make out of Governor Wilson's writings. I hope they will read them carefully and thoroughly. They will be able to gain a great deal of valuable information, and when the context is read along with the excerpts which have been taken from his works for the purpose of placing him in a false light I have no fear as to the results. All that is needed is a thorough understanding.

"Ingersoll sought to disprove Bible truths and to assail Holy Writ by the same methods which the Republicans are seeking to assail Governor Wilson."

The average business man has been educated to the fact that it is a good investment to give some of his time to political affairs. This is one of Democracy's best signs of victory.

Perhaps the Republicans, as represented by Taft, are satisfied with the Payne-Aldrich tariff bill. But the majority of the voters are not.

Mrs. J. Rogers Gore, died at Hodgenville last Wednesday after a long illness.

The Connecticut Republican convention nominated a complete State ticket at Hartford, John P. Studley, of New Haven, being named for Governor.

Harvey McCutchen, formerly a member of the Board of Prison Commissioners, succumbed to a stroke of apoplexy at his home at South Union, Logan county.

According to reports made by the Department of Agriculture, between 15,000 and 20,000 acres of cotton has been damaged in Arkansas by the cotton caterpillar.

Members of Republican County, Central and Executive Committee in Ohio who have not declared in favor of the Republican ticket, including Taft, were asked to resign.

Floyd Allen and his nephew, Claude Allen, two leaders of the gang that shot up the Hillsboro, Va., courthouse and murdered court officers, were sentenced to be electrocuted November 22.

Fear of a clash with Senator La Follette, it is said, blocked the naming of a State ticket in Wisconsin by the Progressive convention held at Milwaukee. Presidential electors were named.

Clerk Trimble, of the House of Representatives at Washington, said Saturday that of the 1,000 or 1,200 candidates for Congress throughout the country only about one-third had filed a full account of campaign expenses.

Whitley City won over Pine Knott in the contest for the county seat of McCreary county. The announcement has not been officially made and the last accounts indicated that trouble was brewing.

Fifteen hundred Democrats, returning from a parade where they had been reviewed by Gov. Wilson, narrowly escaped drowning when the excursion steamer upon which they were crowded struck a rock and sunk a few minutes later.

William Whittaker, a wealthy farmer of Anderson county, is dead from stab wounds in the stomach, said to have been inflicted by his wife while he was asleep. Mrs. Whittaker, who is said to be ill, has been arrested, charged with murder.

Al Boyce, Jr., was shot and killed at Amarillo, Tex. John Beal Sneed was arrested, charged with the killing. The killing is said to have been a sequel to the Sneed-Boyce case, as a result of which Al Boyce's father was killed by Sneed in Fort Worth, Tex., several months ago.

Sidna Allen and Wesley Edwards, members of the Allen gang that shot up the Hillsboro, Va., court last March, afterward making their escape, were captured in Des Moines, Iowa, by detectives who trailed them by following Miss Maude Iroler, of Mount Airy, Va., who was to have been married to Edwards last week.

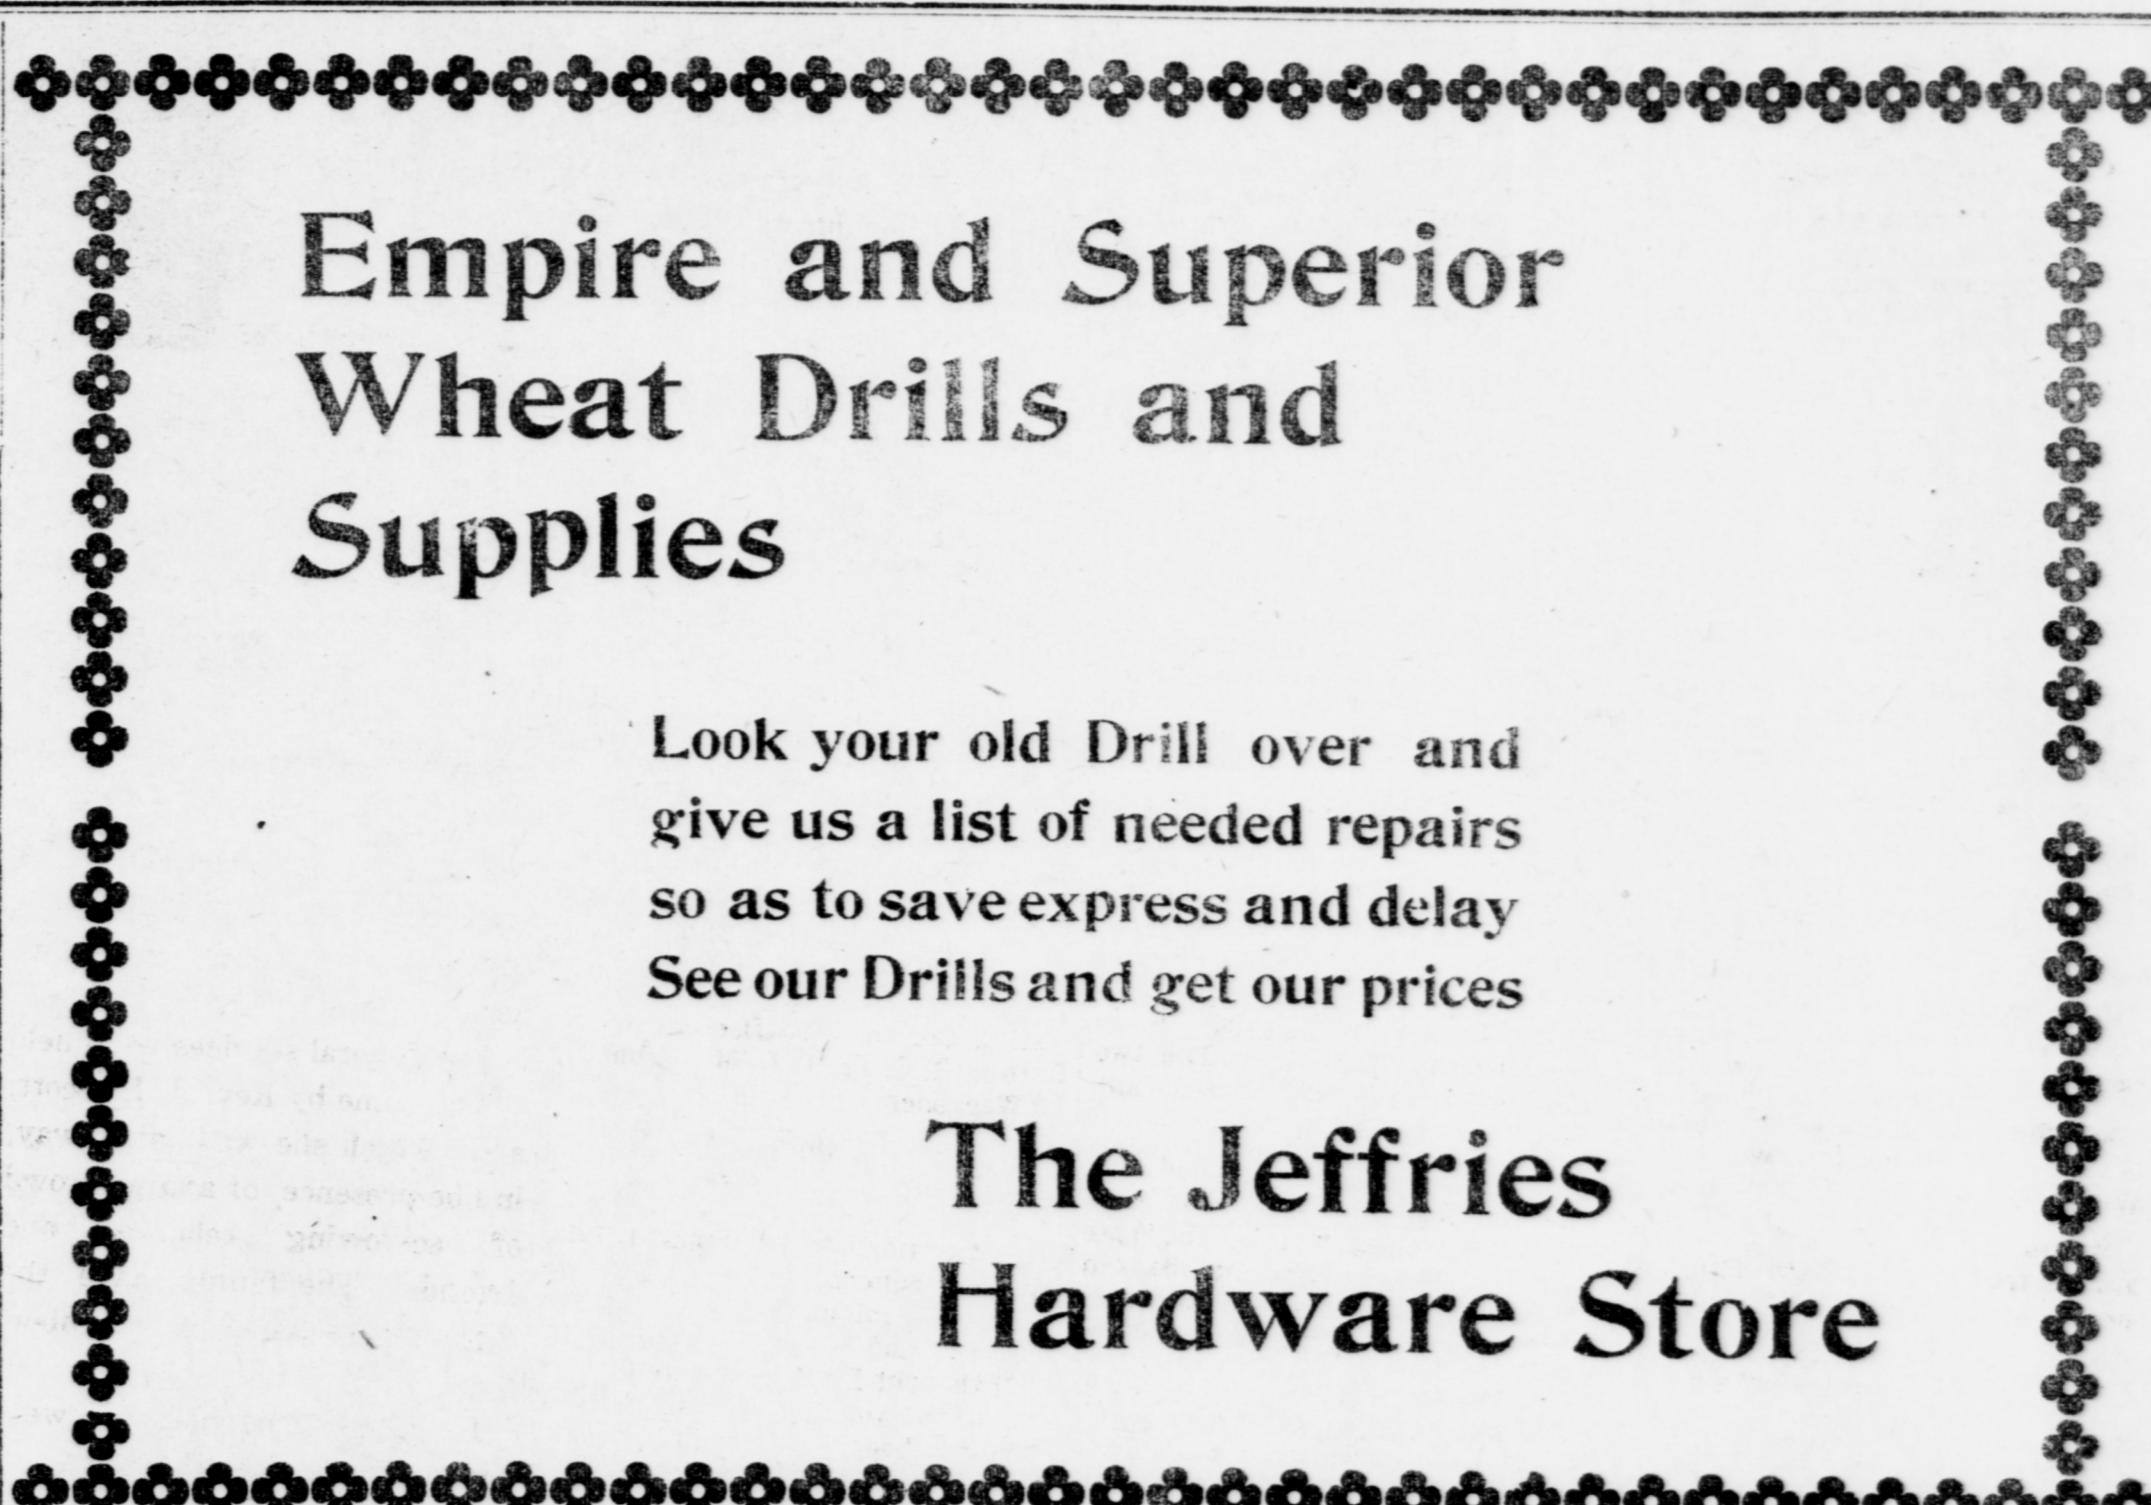

The Kentucky State Fair ended its 1912 show Saturday night, the attendance for the week being considerably in excess of last year, it is declared. Officials of the Fair say they are greatly pleased with the success of the Fair this year. It was announced that the receipts this year would put the Fair entirely out of debt.

Losses Due to Bad Roads.

J. E. Pennybacker, executive secretary of the American Road Congress, estimates that if 20 per cent. of the public highways of the country were improved not less than \$250,000,000 would be saved in the cost of hauling the crops of 1912. Mr. Pennybacker says:

"The Government's prediction that the crop now being harvested will exceed any previous year's yield should serve to call attention to the great losses that are being sustained by farmers and consumers in the hauling of crops. It is estimated that the improvement of the main roads of the country, approximately 20 per cent., would result in an annual saving of at least \$250,000,000 in the cost of hauling alone, which would be sufficient to improve 50,000 miles of road at a further cost of \$5,000 per mile. In five years this would improve 250,000 miles, which would be sufficient to bring the total mileage of improved roads up to 20 per cent."

At present it is estimated that only a little more than 8 per cent. of the public highways have been improved. The good roads movement is gaining

CAUSE AND REMEDY.

Uncertainty of the immediate future is looked upon by many men of affairs, as a blockade to enterprise and business prosperity, and this blockade is now quite apparent throughout the channels of trade. The Presidential Election, the efforts of Congress with no fixed purpose; Organized Labor as a new factor in politics; together with other matters of greater or less import, represent at this time a chaotic conflict of separate interests, to harmonize which is now the problem before the country.

2 Too much cannot be said of THE MIGHTY HAAG RAILROAD SHOWS parade, which takes place daily on the public streets free for everybody, and is one mile in length and introducing features never attempted by any other show for their street pageant. No parade is complete without a caliope and Mr. Haag has spared no expense in this everlasting feature of the parade. Not only have the HAAG SAOWS one of the finest caliopes in the world, but have been fortunate enough to secure the services of Signor Lamont, who is considered the premier of caliope players, and will certainly gladden the hearts of the children, and everybody as well with up-to-date selections. Will exhibit at Campbellsville Monday Sept. 30th.

Obituary.

On August the 11th, 1912, the death angel visited the home of Jesse Breeding, and claimed for its own his loving companion, Malinda J. Breeding, who had been in declining health for some time.

Mrs. Breeding was born May the 6th, 1849, and was married to Jesse Breeding, March the 10th, 1867, and to this union ten children were born—seven boys and three girls—all still living.

Mrs. Breeding professed religion in 1865, and joined the Baptist church, living a faithful Christian until the end came, and when she found she could stay no longer, she told her folks there was not a thing in her way for she was ready to go, and she told them she wanted to be buried at home, and also told them how she wanted to be buried.

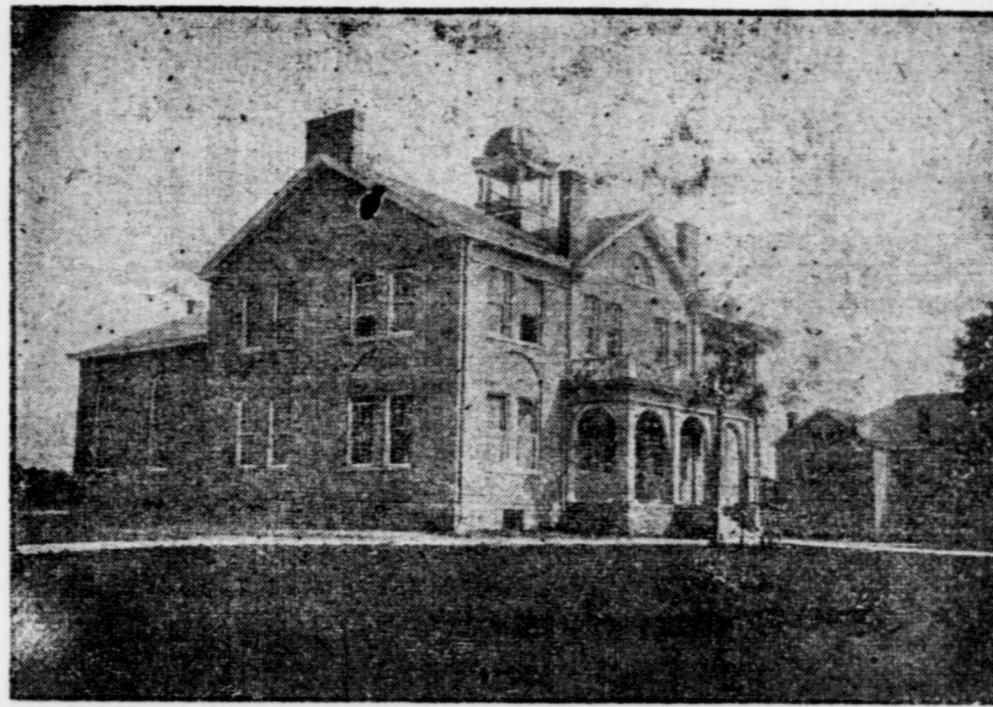

There are several cases of diphtheria in here.

Mr. Jas. Bell had a stroke of paralysis three weeks ago and is still in a very serious condition.

Mr. and Mrs. Tom Combs have been visiting Mr. Combs father at Tompkinsville, for the last week.

Mr. Gilford Hamilton is finishing up a large tobacco barn.

She was a loving companion, a kind mother and grandmother, and was loved by all who knew her.

The funeral services were held at the home by Rev. J. E. Scott, after which she was laid away, in the presence of a large crowd of sorrowing relatives and friends. The family have the sympathy of the entire neighborhood.

Farewell, dear mother, sweet thy rest—worn with years and worn with pain—farewell, till in some happy place, we shall behold thy face again. 'Tis ours to miss thee all our years, and tender memories of thee keep thine in the Lord to rest for so He giveth his beloved sleep.

M. F. Moore.

Nell.

Died at her home near this place Mrs. Mary E. Rose, (nee Bell,) wife of Mr. John Rose. She liked a few days being 57 years old at her death. She had been in declining health for about two years, and had a complication of diseases. She professed faith in Christ early in life, united with the Baptist church and lived a consistent Christian life. She was so resigned to death that on Sunday morning called her family and friends around her bed and talked to them. Her funeral was preached by Rev. Scott, pastor of the church at this place at her home Tuesday morning at nine o'clock, in the presence of a large crowd of relatives and friends. She leaves a husband, one daughter, Mrs. G. E. Nell, Gradyville, three sons, one brother, and two sisters to mourn their loss. The remains were carried to Union and laid to rest to wait the resurrection.

What's The Matter With Your Baby?

The young mother—and many an old one too—is often puzzled to know the cause of her child's ill nature. The loudness of its crying does not necessarily indicate the seriousness of its trouble, for it may be nothing more than the matter with it than a headache or a feeling of general dullness. It cannot, of course, describe its feelings, but as a preliminary measure you are safe in trying a mild laxative.

Nine times out of ten, you will find it is all the child needs for its restlessness and peevishness are perhaps due to obstruction of the bowels, and once that has been remedied the headache, the sluggishness and the many other evidences of ill health and indigestion will quickly disappear.

Don't give the little ones salts, cathartic pills or nasty waters, for these will act as purgatives, and they are too strong for a child. In the families of

Mrs. M. S. Adams, Auburn, Ky., and Mrs. L. M. Boyce, Tip Top, Ky., the only laxative given is Dr. Caldwell's Syrup Pepsi. It has been found to answer most perfectly all the purposes of a laxative, and its very mildness and freedom from griping recommend it especially for the use of children, women, and old folks generally—people who need a gentle bowel stimulant. Thousands of American families have been enthusiastic about it for more than a quarter of a century.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle, may send a small sample and send to the home office of charge by simply addressing Dr. W. B. Caldwell, 465 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Bad Spells

"I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time, I was getting worse. I had bad spells, that lasted from 7 to 28 days. In one week, after I gave Cardui a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 5 weary years! Cardui relieved me, when everything else failed."

TAKE CARDUI The Woman's Tonic

If you are weak and ailing, think what it would mean, to you, to recover as quickly as Mrs. Navy did. For more than 50 years, this purely vegetable, tonic remedy, for women, has been used by thousands of weak and ailing sufferers. They found it of real value in relieving their aches and pains. Why suffer longer? A remedy that has relieved and helped so many, is ready, at the nearest drug store, for use, at once, by you. Try it, today.

Girlhood.

To be a girl is to be in the happiest state possible to humanity; but girls do not know it. They are always looking forward to something, wanting something—a diamond or a beau, flattery or new gowns. They rather envy women a little ahead of them, who have more self-possession, and are sometimes jealous of some married woman who flirts and makes a dash, "I'm only a young girl," we heard one say. Only a young girl! Oh, be glad of it; delight in it! Thank heaven every morning that you are still a young girl. The years will slip through your fingers like beads from a broken necklace after a while; but now they linger while you are still a girl—a girl in the home of your parents, yet in the prime of life, with young brothers and sisters for companions. There will never be anything better than this in all the world. There are no skeletons in your closet, no ghosts in your reveries. Your future is all full of hope. You can fill in the distance as you like. You can fancy a lover coming to you who is perfect in all things; and every young man is interesting, because he may possibly be the other half of your soul. And every new girl may be the lifelong friend and confident girls hope for. As for beauty, the idea of a girl of seventeen thinking herself plain, as some do! In a few years she will look in the glass and see those fine horizontal lines on her forehead, on which Time scores down her troubles, and at the corner of her eyebrows, three little pencil marks, and a little fall in her cheek, and a mouth that does not smile as readily as it once did; Not an old face yet, but not a girl; and then she will realize what it was to have a girl's face! Oh, how few the years are! How they whirl away! But, while you have it envy no woman her diamonds and laces, her carriages or her palace, her fortune or her admirers. While one is in one's teens, nothing else is necessary, except to realize the fact and thank heaven for it.—Exchange.

Meet After 56 Years.

Way back yonder in the year of 1856 there lived in Virginia a family by the name of Howell. And in this family there were two brothers named Matthew and Jack. Matthew was the older and like many others of his native State, he conceived the idea of going west to what was then a scarcely settled region, and he came to Kentucky. In the same year or a little later Jack decided that he would leave the old home and try his fortune in a new country, and accordingly he went to Texas, and later to Arizona.

Now in the years that intervened between their separation, although they have known of each other's location, and have corresponded, they have never met.

Last Friday Jack Howell and his wife came to visit Matthew and his wife at Good Luck. The meeting took place here, and the union of the two brothers after a separation of 56 years was a joyous event.

Jack Howell and wife will remain in this section for some

time before leaving for their Arizona home.—Edmonton News.

The School Law.

Every parent or guardian having control of any child between seven and twelve years, inclusive, shall see that the child attends some public or private school for the full common school or graded term each year. Any such parent or guardian who shall make a false statement concerning the age of such child shall be fined in any sum not exceeding fifty dollars, or by imprisonment in the county jail not exceeding thirty days, or both so fined and imprisoned. Any parent or guardian failing to comply with the provisions of the law shall forfeit to the use of the school within the district a sum not less than five dollars no more than twenty dollars for the first offense, nor less than ten dollars nor more than fifty dollars for the second and every subsequent offense, and cost of suit.

Stranger than Fiction.

When the doctor says, "You need no medicine."

When your wife refuses a new gown.

When a magazine accepts your poem.

When a summer girl refuses to flirt.

When a vacation is a real rest.

When you have money after a honey moon.

When your gold mining stock pays a dividend.

When you walk in the dark without barking your shins.

When your auto tire forgets to puncture on a hurry-up trip.

When the horse you play to win comes in first.

When it does not rain on your vacation.

When the girl you really love, loves you.

When you have a good balance of cold cash at the end of the year.

Our August rainfall has been generous, and crops which promised in July to be almost a failure are growing with such leaps and bounds that an average crop, or almost an average, of both corn and tobacco may be realized. There are plenty of garden vegetables, such as tomatoes, potatoes and beans, both of the former crops being unusually bountiful. The hay crop was above the average, as was also the oat crop, and fall pastures were never better. With a big bunch of money to be turned loose next week to the poolers of the 1909 crop of tobacco, there does not seem to be any special reason for hard times. And on top of all this the Presidential campaign is just beginning, and may be some of the candidates with a "barrel" will find their way into these parts.

Many Driven from Home.

Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and cure yourself at home. Stay right there with your friends, and take this safe medicine. Throat and lung troubles and quick relief and health returns. Its help in coughs, colds, grip, croup, whooping-cough and sore lungs make it a positive blessing, 50¢ and \$1. Trial bottle free. Guaranteed by Paul Drugg Co.

Zion.

Last Saturday night at the hour of eleven, Mrs. Butler Bryant peacefully closed her eyes in death, which ends all the trials and troubles of this earthly life, to wake up in a better world, where sorrows are not known. She was ill for six weeks, and all that neighbors and friends could do was done to relieve her suffering. She was laid to rest in the family cemetery Sunday afternoon at 4 p. m. stance. The Bull Moose wanted to run him for Governor of Ohio, but he declined the proffered honor with the statement that he does not intend supporting Mr. Roosevelt for the Presidency but is for Governor Wilson, whom he regards as the real progressive in the present contest.

Then there is Louis Brandeis, who has been well designated "attorney for the people." Mr. Brandeis, whose right to be termed a progressive even Mr. Roosevelt's loudest champions would not dare dispute, says: "Governor Wilson's speech of acceptance is the utterance of a 20th century statesman. Progressive Americans have in him a worthy leader." And Dr. Wiley, conservator of the public health and hated foe of the food doppers, who drove him out of the Taft administration, declares he is for Wilson and Marshall, because both men have fought in their respective states for the things he contended for in the department of agriculture. Dr. Wiley is quoted as saying that neither Taft nor Roosevelt has any claim for the support of pure food advocates.—Richmond Register.

Revs. Jesse and Scott began a series of meetings at this place last Sunday. But the farmers of this section were so busy with their fodder and tobacco that they could not attend regularly and so on Tuesday night the preacher decided that they had come at an inopportune time and so decided to postpone the meeting until the fourth Sunday night in next month.

Deputy Sheriff Mike Winfrey was visiting in this community last Thursday. His coming was announced by wire a few hours before he arrived. Some of our citizens at once remembered that their mothers or wives had asked them to cut bean sticks last spring and that they had been so busy at that time that they could not comply with the request, and not wishing to disappoint the good ladies entirely they shouldered their axes and

made for the woods. And the report is that they worked vigorously and noiselessly until Mike was well on his way to Columbia.

Jamestown.

It is so very seldom that we see a letter to the paper, loved most by Russell County people, that we will now beg for a very small space, in order that you may know that Jamestown is still on the map.

Our town has, during the past week, been very lively, cause of this unusual occurrence, "The Russell County Teachers Institute." There were some sixty or more teachers in attendance, and all of our teachers were very much pleased with the instructor Prof. R. P. Green, who we wish to add, is one of the most pleasant and entertaining gentleman we have had the pleasure of meeting.

The Falkenburg hotel, in addition to being over-run with teachers, the professors, attending the institute, had, during institute week, an unusual number of "Newly" married persons, to-wit: Dr. A. T. Armstrong, of Oklahoma, and Miss Myrtle Phelps, a daughter of one of our leading farmers, of Esto; Dr. Armstrong is a son of William Armstrong, a leading merchant and farmer of Creelsboro, Ky. Dr. John I. McLendon, one of our leading physicians, and Miss Hulda McFarland, a daughter of — McFarland, of Rowena, Ky., and M. O. Richards, of the Welfare neighborhood, and Miss May Dunbar, a daughter of Logan Dunbar, one of our leading farmers. All the above weddings took place during institute week and the young men of our town, as well as a number of teachers from the country, gave each of newly married pair a grand reception, upon their arrival at the Falkenburg Hotel and about the hour of midnight, with a genuine and old time shivaree, which were enjoyed by all, unless it was the ones for whom the beautiful serenade was rendered.

Prof. Edgar L. Thompson, of Bowling Green, was here at our institute in interest of the B. G. Normal and delivered some very interesting talks to the seachers. Prof. L. F. Gehies, was in attendance at our institute in the interest of agriculture and should our teachers heed the advise given by Prof. Gehies I am of the opinion that the time would not be far distant, that we would have agriculture taught in our common schools.

The people of our town are generally, enjoying good health, considering the extremely warm weather. The attendance at our institute was large and both of our hotels were full to overflowing.

It is to be hoped that a number of our old "batchelors," as well as old maids, will now wake up and take a hint from what has occurred the past week, and will go and do likewise, remembering that "time and tide wait for no one".

Editor News:

Please permit me space in your paper for a few words to my friends and acquaintances in old Ky.

We left Russell County, Ky.,

for Illinois, early in 1910; and have lived in central Illinois since.

This is a fertile country indeed. The present oat crop, ranged from 60 to 90 bushels per acre and the prospect is good for 50 to 75 bushels per acre for corn.

Fruit is next to a failure on account of the severe cold of last winter.

Whoop! but it was some cold here and gee! but it has been some hot, during this month, however it has moderated some and is very pleasant weather now.

Wife has had much better health since we came to Illinois, and our two boys—age 4 and 6 are in fine health, the oldest having just entered school. As to myself I am just as fat as ever.

Financial opportunities are better here, but Social conditions are more satisfactory in old Ky.

I find Kentuckians scattered all over central Illinois, and when I meet one it is very easy to make acquaintance—if it has not already been made and it certainly does us good to read reports from our friends like that of friend Turpin of Oklahoma published in your paper some time ago.

Come on again Mr. Turpin and give us one more such, please, and may we hear from others whom we used to know and still love so well.

To make a living it is easier here or at least there are more opportunities but to have a good sociable time it is better in Ky. Here the universal motto seems to be hustle to make money from Jan. 1st to Dec. 31st. There it is work reasonable and be contented. Yes I believe there is as many contented happy people in Kentucky as any where under heaven. To all my friends in old Kentucky accept my love and best regards. Your sincere friend.

To Paint Your House With

Mastic Paint

"The Kind That Lasts"

Your house must be painted. Two-thirds of the cost must go to the painter, who will charge no more for putting on Mastic Paint than for an inferior kind. Mastic Paint gives the most beautiful, hard, enamel finish; will not crack, chalk or peel off, and lasts longer than other paint.

FOR THE LAND'S SAKE!

USE
BOWKER'S HIGH GRADE COMPLETE
FERTILIZERS

It has been thoroughly demonstrated by our leading farmers who have made field tests with Bowker's Fertilizers that the farmer who will prepare his land well and get his wheat sown early can, to a very great extent, insure his crop to be of the very highest and best quality and yield perfectly satisfactory.

I am interested in the welfare of the farmers of this county and I want to see them come to the front and make money, and in order to do this the farmers should be very careful in selecting his fertilizers and be sure that he is dealing with a reliable concern. You know that no local agent ever claimed to be selling anything better than the old reliable HOMESTEAD BONE BLACK FERTILIZER or HORSE SHOE BRAND CORN and WHEAT GROWER. If he did he must have been selling Bowker Brands.

The above named brands are all manufactured by the American Agricultural Chemical Company, of Cincinnati, O., and you can rely on them to be the very highest quality, none better made.

See our local agents about prices.

Mr. James Cravens who has been very poorly with rheumatism is some better.

Mrs. Ion Smith left for Illinois last Saturday morning.

Mr. and Mrs. Bob Cravens who have been in from Illinois have returned to their home.

Miss Nannie Webb is in very poor health.

What We Never Forget according to science, are the things associated with our early home life such as Buckland's Arnica Salve, that mother or grandmother used to cure our burns, boils, scalds, sores, skin eruptions, cuts, sprains or bruises. Forty years of cures prove its merit. Unrivaled for piles, corns or cold sores. Only 25 cents at Pauli Drug Co.
